*** All English semester courses must be taken concurrently with an English full-year course in grades nine, ten, and eleven. Furthermore, students should not plan to “bank” English credits in the lower grades in order to bypass all or part of Senior English. English semester courses will be treated only as elective credit unless they are part of the Senior English option. Seniors will be given priority registration for all semester English courses, especially when those semester courses are being used to satisfy Senior English. ***

In order to take AP® Research, the student needs to fulfill the successful completion of AP® Seminar and obtain the recommendation of the AP® Seminar teacher.
