DISTRIBUTION OF MEDICATION AT SCHOOL

Dear Parent/Guardian,

Ideally, all medication should be given to students at home. However, since that is not always possible, school personnel can assist a student during the day. Only those medications which are necessary to maintain the student in school, and which must be given during school hours, will be administered. In order for school personnel to administer medication to a student, the school district’s “Authorization to Administer Medication” form must be completed and on file in the school office. This form must be completed annually for students receiving ongoing medications.

Our schools take every precaution that medicine taken by children in our care is prescribed and controlled in such a manner as to avoid oversights that might endanger a student’s health. Medication(s) will not be administered to your student without the “Authorization to Administer Medication” form that has been completed by your physician. Please note that all medications must be in the labeled prescription container and in the same dosage described on the medication form. Please do not ask us to administer any medication (includes non-prescription drugs such as cough medicine, ear drops, aspirin, etc.) not prescribed by your physician. Board policy prohibits us from doing so.

High school students may self administer medication. Elementary and middle school students may self administer only emergency medications such as Epi Pens and inhalers with the approval of the parent and physician.

Should you have any questions about this policy, you may review it at (http://board-policy.wlesd.org, policy #JGFGB. Your understanding and cooperation are appreciated.

Sincerely,

Christopher J. Delgado
