Welcome to Meadowbrook Elementary School - Video Transcript

Meadowbrook Elementary's known as being a diverse neighborhood school located right here in Novi, Michigan serving students from Novi, Farmington Hills and West Bloomfield. We're a culturally rich school that academically challenges all of our students were the academic scale.

First and foremost Meadowbrook is a very culturally rich school. We have families that represent over 30 countries from across the world right here at Meadowbrook and over 250 of our families have at least one additional language at home.

Secondly, our standards for all of our students are extremely high. We have students across a number of different backgrounds at levels. One of which of course of academic so whether you're student that's performing extremely high or maybe a student that's struggling a little bit our job and our staff's job is to meet each of those students needs every single day so my teachers know and all my ancillary staff know where every single child is similar to what like schools every child every day and third we're a place that parents trust and parents count on to be a safe, good place for their kids to go to school every single day. They hand us their pride and joy we certainly take care of them or challenge them and make sure that every single day school's up a great day.

Almost all of our students when they talk about Meadowbrook, they talk about it being a safe, responsible and respectful school and each of them know that they play a huge role in that. That every student that goes here, that part of their job is to be safe, responsible and respectful and that carries out and how they handled themselves on a playground, on the bus and the class when they're working on math or English, they know that they have a job to do and they know that they're part of a bigger goal.

We want we want all of our students no matter where they come from, no matter what their background, no matter what their ability our job as a staff and our teachers in the classrooms is to challenge each student no matter where they are every single day. So every child may have of course they follow, we follow the Walled Lake Schools curriculum but every child's piece of that curriculum may look a little bit different and our job is to challenge each child within that curriculum to the most and the best that we can and we want them to be strong learners we want them to be great citizens.

All of our parents and a lot of parents in these times of course shop around to schools. Time after time many parents choose us as their place that they trust and they want their child to go to school. They tell me that within a couple minutes with inside our door they know that this is the place that they want their child. It's something they can they can feel, they can see as our teachers interact with students as our other staff members help out and work in our school day it can just tell that we care about kids.
