August, 2019

Dear Parents of Fifth Grade Students,

Your son/daughter will be attending camp this year with his/her classmates and teacher at the Walled Lake Outdoor Education Center. This is a residential, science-based program that is directly related to the curriculum taught in elementary school. At the Walled Lake Outdoor Education Center, students become part of the web of life; they experience nature first-hand and learn about the impact they have on their environment. The goal of the program is to provide students with an integrated, experiential curriculum to increase awareness, appreciation and understanding of the natural world.

The children will be spending 2 ½ days (2 nights) at the facility with their classroom teachers. The cost for each student will be $145.00. This helps to cover the costs for food, facility use, additional instructors/chaperones and transportation. For a second child in the same family attending during the same week, the cost will be $115.00. Children attending camp are required to pay the fees in full prior to their camp experience. If your family has any financial concerns about camp, please contact your building principal or child’s classroom teacher.

Please make checks payable to Walled Lake Schools and submit to your child’s fifth grade teacher in an envelope marked Fifth Grade Camp.

Sincerely,

Stuart Riley, Director
Outdoor Education Center

Catherine Kochanski, Assistant Superintendent
Learning Services

Walled Lake Consolidated Schools
