TO WHOM IT MAY CONCERN:

This letter is to inform you Heat and Frost Insulators Local 25 Joint Apprenticeship Training Committee will be accepting applications at the Union Hall, 21353 Bridge Street, Southfield, Michigan on the following days and times:

DECEMBER 2018

Saturday, December 8, 2018
Tuesday, December 11, 2018
Wednesday, December 12, 2018
Thursday, December 13, 2018
Saturday, December 15, 2018
Tuesday, December 18, 2018
Wednesday, December 19, 2018
Thursday, December 20, 2018

8:00 a.m. – 1:00 p.m.
8:00 a.m. – 12:00 p.m.
8:00 a.m. – 12:00 p.m.
8:00 a.m. – 12:00 p.m.
8:00 a.m. – 1:00 p.m.
12:00 p.m. – 7:00 p.m.
12:00 p.m. – 3:30 p.m.
12:00 p.m. – 3:30 p.m.

JANUARY 2019

Tuesday, January 8, 2019
Wednesday, January 9, 2019
Thursday, January 10, 2019
Saturday, January 12, 2019
Tuesday, January 22, 2019
Wednesday, January 23, 2019
Thursday, January 24, 2019
Saturday, January 26, 2019

8:00 a.m. – 12:00 p.m.
8:00 a.m. – 12:00 p.m.
8:00 a.m. – 12:00 p.m.
8:00 a.m. – 1:00 p.m.
12:00 p.m. – 7:00 p.m.
12:00 p.m. – 3:30 p.m.
12:00 p.m. – 3:30 p.m.
8:00 a.m. – 1:00 p.m.

Applications will be available to all who are interested without discrimination because of race, color, religion, sex or national origin. Applicants must be at least 18 years of age by June 1, 2019 and each applicant will be required to have a high school diploma or G.E.D. by June 1, 2019 and a valid driver license. The applicant must reside in the geographic territory of the Union: the counties of Wayne, Oakland, Macomb, St. Clair and the Townships of Ann Arbor, Augusta, Lodi, Northfield, Pittsfield, Salem, Saline, Scio, Superior, Webster, Ypsilanti and York in Washtenaw County.

Applicants should bring their valid driver license and if already obtained, an original high school diploma or G.E.D., copies will not be accepted, at the time they apply. There is a $30.00 non-refundable testing fee that is payable at the time of application. The fee should be paid by money order or cash, no personal checks will be accepted.

Applications are being taken to update our Apprenticeship list.

Sincerely,

CURT McGLONE
Business Manager
HEAT & FROST INSULATORS
LOCAL 25
J.A.T.C. Administrator

CM/mmh
JOB DESCRIPTION

* JOB DESCRIPTION: The position of a heat and frost insulator covers the preparation, fabrication, alteration, application, erection, assembling, molding, spraying, pouring, mixing, hanging, adjusting, repairing, dismantling, reconditioning, maintaining, finishing, and/or weatherproofing of cold or hot thermal insulation with such materials as may be specified when these materials are to be installed for thermal purposes in voids, or to create voids, or on either piping, fittings, valves, boilers, ducts, flues, tanks, vents, equipment or on any hot or cold surfaces for the purpose of thermal control and installation of fire penetration. This is also to include all labor connected with the handling and distribution of thermal work that is within the jurisdiction of Local No. 26.

* REQUIREMENTS: Strength to manage heavy equipment and lift loads in excess of 100 pounds while standing; ability to use hand trucks or fork lifts. General learning ability to understand the nature and use of dangerous chemicals, sprays, weatherproof mastics, acid, caustics, etc., and the ability to adopt their use in different situations at different industrial sites. Working with the fingers, grasping, turning, reaching, holding and other handling maneuvers to manipulate equipment and chemicals and apply them in all kinds of areas. Stooping, kneeling, crouching, crawling around pipes, narrow spaces, around high scaffolding, and the like. Climbing, ascending and descending ladders, stairs, scaffolding, and ramps in varied industrial settings e.g. roofs, basements, tunnels, etc. Hearing and talking in order to give and receive commands, assess situations, identify problem areas in installation. Visual acuity, depth perception, ability to focus, field of vision are required in order to apply chemicals and insulate pipes in a variety of industrial settings under difficult environmental conditions; eye-hand coordination to perform operations with care.

* PHYSICAL CHARACTERISTICS REQUIRED: Ability to read and comprehend basic instructions. Ability to communicate with other workers, customers, other trades, supervision and other job/shop personnel. Ability to sometimes move heavy equipment, supplies in excess of 100 pounds while standing; ability to drive heavy machinery; ability to move around different work areas, including high scaffolding and maneuvering through narrow tunnels; ability to work with insulating equipment; ability to work in external temperatures (hot and cold) and in dusty environments.

* ENVIRONMENTAL AND WORKING CONDITIONS: Exposure to weather, including outdoor conditions that may vary from hot summers to sub-freezing cold in winter, rain and humidity. Extreme cold, including freezing units. Extreme heat, including basement heating, boiler rooms, and heated, confined steam tunnels; above average noise intensity in industrial sites; vibrations of floor surfaces and objects due to machines; exposure to fumes, noxious odors, dust, gases, poor ventilation that affects the respiratory system, eyes or skin; close proximity to moving mechanical parts of tools and machinery; working in high, exposed places where the worker could be exposed to injury from falling; possible exposure to radiation; exposure to toxic chemicals and caustic chemicals; exposure to hot compressed steam pipes. Possible exposure to asbestos and other airborne particles.
